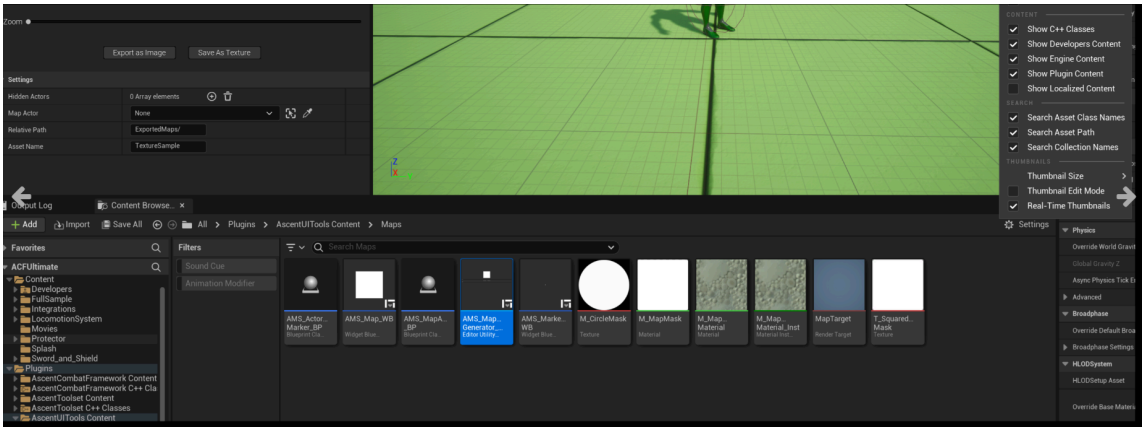
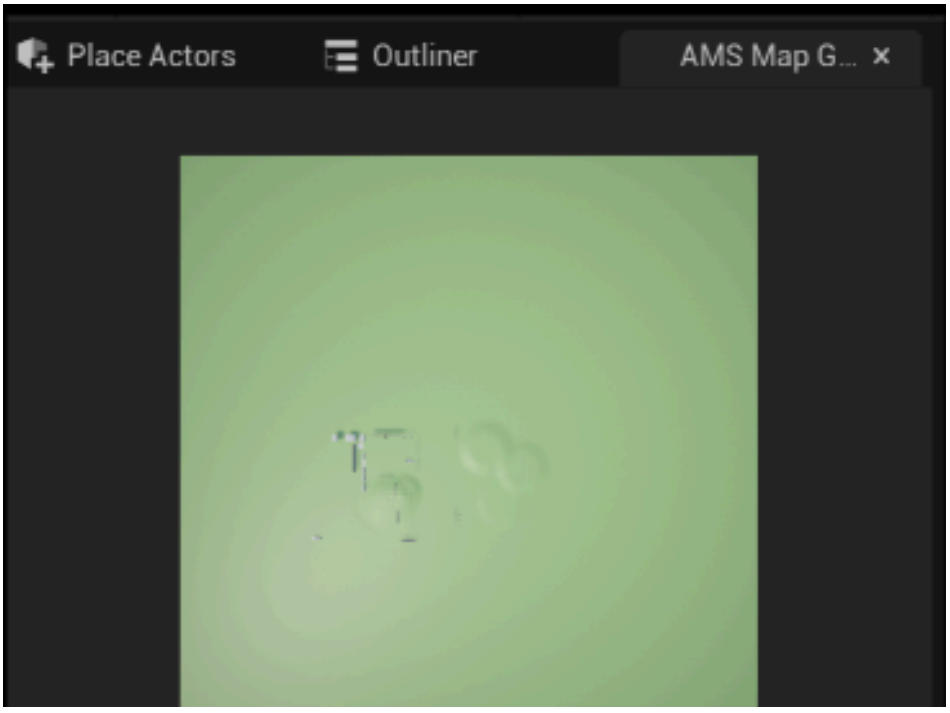
Map System

Creating a new Map Widget

To create a new map the first thing you'll need to do is to open the *AMS_MapGenerator_EUW* (Editor Widget) located in your *Plugins/AscentUIToolsContent/Maps* folder. If you can't see this folder just remember to activate Plugins content in *Settings->Show Plugins Content* as shown in the image below.



From the same folder you'd need to drag in to your map the *AMS_MapArea_BP* which will be responsible of defining the boundaries of the current map.



Inside the MapArea actor you can define the area size and you can move the actor to define the position, when you are happy with your configuratio
