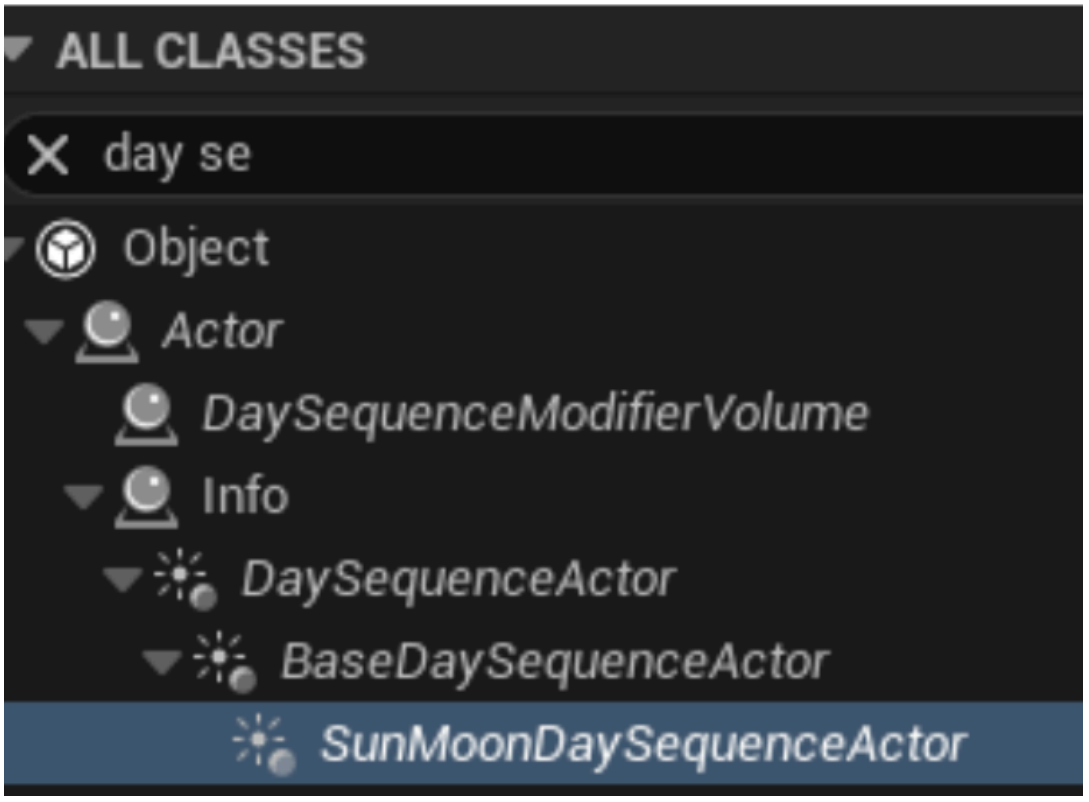
Routine Setup

1. Add a Day Sequencer to the Level

1. Right-click → *Blueprint Class*
2. Search for `SunMoonDaySequencer` (or your project's equivalent)
3. Create it (e.g. `BP_DaySequencer_Main`) and place it in the level
4. Ensure it's running (Apparent Time of Day > 0)



> *The Routine Component will read the current time from this actor.*

2. Create a Routine Task Blueprint
